Shahziar Karim Safit S. K. Safit S. K. Safit S. K. Safit

Career Objective

A graduate in Electrical and Electronic Engineering from Rajshahi University of Engineering & Technology (RUET), with experience in academic research, technical projects, and problem-solving. Eager to use the knowledge and skills gained through academic studies and practical experience to take on new challenges and grow professionally. Always willing to learn, adapt to new situations, and work with others to achieve common goals. Looking forward to building a meaningful career through hard work, honesty, and dedication while making a positive contribution to the organization.

Education

- **Rajshahi University of Engineering & Technology (RUET)**
  B.Sc. in Electrical & Electronic Engineering, CGPA: **3.68 / 4.00** **Mar. 2022 – Sep. 2026**
- **Notre Dame College**
  Higher Secondary Certificate (HSC), GPA: **5.00 / 5.00** **2018 – 2020**
- **Ideal School and College**
  Secondary School Certificate (SSC), GPA: **5.00 / 5.00** **2016 – 2018**

Research Publications

- **S. K. Safit**, M. Z. I. Sarkar, P. Mahmud, A. Habib, and A. Hassan, "Secure Outage Performance Analysis of Reconfigurable Intelligent Surface-Aided Networks with Selection Combining Diversity Scheme," *2026 International Conference on Power, Electronics, Communications, Computing, and Intelligent Infrastructure (PECCII)*, Pabna, Bangladesh, 2026, pp. 1–6. doi: 10.1109/PECCII70991.2026.11662065 **Published**
- M. A. Chowdhury, **S. K. Safit**, M. Z. I. Sarkar, Ahshan Habib, and Md. Najmul Huda, "Secure Outage Performance Analysis of Reconfigurable Intelligent Surface Assisted Communication System Over κ-μ Shadowed Fading Channels," *5th IEEE International Conference on Signal Processing, Information, Communication and Systems (SPICSCON)*, BAUET, Qadirabad, Natore, Bangladesh, 2026. **Accepted**

Professional Experience

Industrial Training **Mar. 2, 2025 – Mar. 9, 2025**

Siliconova Limited *(Semiconductor & VLSI Technology Company)*

- Gained practical exposure to ASIC design flow, RTL coding using Verilog/SystemVerilog, CMOS and VLSI design concepts, FPGA and semiconductor technologies, and digital circuit design and verification.
- Worked with Verilog RTL coding and simulation, ASIC physical design, Design for Testability (DFT), timing analysis, synthesis flow, and Cadence IC design tools.

Teaching Experience

QNA Teacher and Script Evaluator *(UDVASH — Part-time)* **Apr. 2023 – Aug. 2025**

- Provided academic guidance and conceptual support to students through question-answer-based teaching.
- Evaluated students' scripts and provided constructive feedback to improve their academic performance.

Projects

1. **ESP32-Based Interactive Quadruped Robot with Wireless Motion Control** **Mar. 2026 – Jun. 2026**
   - Developed an 8-DOF quadruped robot using ESP32, eight servo motors, Wi-Fi-based web control, OLED facial animation, and a 3D-printed mechanical structure.

2. **Microstrip Patch Antenna Design at 2.4 GHz** **May. 2026 – Jun. 2026**
   - Designed and simulated a 2.4 GHz microstrip patch antenna for wireless communication applications.
3. **Electrical Service Design of a Residential Apartment Building with 11 kV Substation and Lightning Protection System** **Dec. 2025 – Mar. 2026**
   - Designed electrical service systems including load calculation, wiring, protection, lightning protection, and 11 kV substation design for a residential apartment building.
4. **IoT-Based Automatic Accident Detection and Rescue System** **Jun. 2025 – Aug. 2025**
   - Designed an IoT-based accident detection system using ESP32, accelerometer, and GPS for real-time impact detection, location tracking, and emergency alerts.
5. **IoT-Based Intelligent Soil Moisture-Controlled Watering System** **Sep. 2024 – Oct. 2024**
   - Developed an IoT-based automated irrigation system using Arduino, ESP8266, soil-moisture sensors, and a water pump for real-time soil monitoring and automatic plant watering.

Technical Skills

1. **Simulation Software:** MATLAB, Simulink, Mathematica, CST Studio Suite, Multisim
2. **CAD Software:** AutoCAD, SolidWorks, EAGLE PCB, Microsoft Visio
3. **Programming Languages:** C, C++, Python, Jupyter Notebook, Assembly Language
4. **Hardware Skills:** ESP32, Arduino, ESP8266, FPGA, emu8086, Microcontrollers
5. **Electronics & Circuit Design:** Proteus, MicroWind, LOGO! Soft Comfort, Adobe Illustrator, Canva
6. **Others:** LaTeX, VS Code, Microsoft Office (Word, Excel, PowerPoint)

Certifications & Awards

1. **Conference Presentation at PECCII 2026** **Jun. 17, 2026**
2. **Conference Presentation at SPICSCON 2026** **Aug. 13, 2026**
3. **Technical Scholarship Recipient** at RUET **2022 – 2026**
4. **Perfect Attendance Certificate**, Notre Dame College, Dhaka **April 2019**
5. **Machine Learning Specialization** by DeepLearning.AI (Coursera)

Leadership / Extracurricular Activities

- **General Member** at RUET IoT Club **Sep. 2022 – Aug. 2026**
- **Active Member** at Notre Dame Math Club **Aug. 2018 – Jun. 2020**
- **Active Member** at Notre Dame Science Club **Aug. 2018 – Jun. 2020**

Additional Information

- **Languages**: Bengali (Native), English (Professional Working Proficiency)
